

Color Poems

“Colors”

Colors, colors all so cute
So many different shades
Colors used to not be a thing
Like purple, different shades of purple are....
Mauve, thistle, puce, all of the above
See what I mean so many colors

Without colors the world would be so boring
Imagine a world in black and white
No style, all the clothes the same
No expression, no excitement and no change
We need color or it will all be the same

We need color!

We need color!
