

Nature/Animal Poems

“Pet Adoption”

Pet Adoption is an option
Won't you consider and make a difference
Adopt a pet, not from a store
But from a cage that's 4 by 4
Neglected
And Hungry
They are weak, hurt, and defenseless
But with your help, we can get them on track
To be in a home
That nurtures, feeds, and loves them like their own
Protect them, don't reject them
They seem mean but inside they are sparkling gems
Their drool may seem like slime and goo
But inside they are shining diamonds
Rescue one and you won't have regrets!

Robinson G. Jones - 3rd - 5th Grade Team

“The Snow is Coming”

The snow is coming,
And we must prepare.
The snow is coming,
Everyone beware.

The snow is coming,
People forget how to drive.
The snow is coming,
Hold on for your lives.

The snow is coming ,
Please call off school.
The snow is coming,
Let the kids rule.

The snow is coming,
Like a swarm of bees.
The snow is coming,
Let's hope it's not up to our knees.

“Creatures”

There are so many cool creatures
All of them have really cool features
There are creepy crawlers, reptiles, mammals and
so much more

There are creatures who lived long ago
and went extinct

There are creatures galore!
Dinos and dodos they all went extinct.
To me they all went extinct in a blink.
My favorite creature of all is the elephant
Resist them? I can't!
